QUALITY MEETS DESIGN

C7 COFFEE TABLE

Design: Louise Siig

COFFEE TABLE WITH BEAUTIFUL DETAILS

The design of the C7 coffee table is based on the classic teak table, which has been given a contemporary look with new materials. The simple expression with the many details elevates any decor in the waiting room or lounge area of the open office. The table is designed in oak, which gives it a beautiful natural look.

The combination of the tabletop and the braided shelf creates a contrast that gives lightness to the design. The shelf makes it possible to store reading material for guests while they are waiting.

The unique coffee table is available in two versions, white pigmented laquered oak veneer and black laquered oak veneer, both with a matching shelf in attractive black wicker.

Combine the coffee table with Andersen LC1 lounge chairs to create a cozy and informal corner. It can also be combined with, for example, Andersen's A2 sofa, Daybed or A3 sofa, so there is a relaxed area for informal meetings, employee brainstorming, waiting area or simply for your living room.

PRODUCT HIGHLIGHTS

- Beautiful classic design in modern materials
- Available in oak white matt lacquer or black lacquer
- Is perfect with LC1 Lounge chair or an Andersen sofa
- For the unformal meeting area, & waiting room - or the living room at your home
