Cordial

5 Year Warranty*

We wanted our Cordial collection to make a statement and to be a talking piece for our customers, and we're confident it's done just that.

Each piece of furniture is crafted from tubular powder coated aluminium frames, that have been handwoven with marine grade olefin rope with a soft rubber core. The rubber core means that only the surface of the rope gets wet during rainfall, and will dry out quickly – around 30 minutes in sunshine and a little longer on a cloudy day. The rope is manufactured to be able to withstand even the most inclement of weather and can therefore be left outside year round.

Available in dark grey 15mm rope or a chunkier dark grey or light grey 50mm rope. Cushions are available in a choice of 2 Agora Fabrics.

The dining chairs are designed to go with our Rimini dining tables with textured matt grey powder coated frames and ceramic effect coated glass tops.

Our show stopper in the Cordial range is the Lucy Chair. Available either hanging from a cantilever frame, or sitting on a base, this piece acts as a cocoon – a place for you to get cosy and experience ultimate relaxation.

*For full warranty information, please visit: www.alexander-rose.co.uk/about/our-warranty

Weatherproof Rope

The Cordial rope is made from Olefin – a weather proof, fade resistant fibre that can withstand even the most inclement weather. The rope has a thick rubber core, so only the very surface gets wet and will dry out in the sun within an hour.

Ocean Pearl

10 Year
Warranty*

Our Ocean Pearl range is made from a 7mm flat profile weave, which is then hand woven in a traditional basket style pattern, onto a powder coated aluminium frame. The structural frame of the furniture is thicker than the industry standard because we wanted durability to be one of the main qualities of this beautiful garden furniture.

We're so confident in the durability of the Ocean Pearl range, that we also provide a ten year warranty on all products. Cleaning couldn't be easier too - simply wipe with a wet cloth, or you can even use a pressure wash.

Alexander Rose hardwood parasols are operated using a pulley and locking pin system. Simply pull the rope down to raise your parasol up to the desired height and place the brass pin in one of the pole holes to secure.

To lower the parasol remove the locking pin and slowly let the rope pass through your hands until the canopy is folded.

We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

What's different about this parasol is the addition of faux leather patches covering the canopy's tips to reinforce the material.

The thickness of the parasol's pole has been increased and has a single central pole making for an all-round sturdier parasol.

We recommend that the parasol is not left up in windy conditions. It is essential to use an Alexander Rose base to add stability.

Our elegant cantilever parasols can be positioned to provide maximum shade. They appear to float above the furniture and can be manually rotated to follow the sun.

They are free standing, which allows you to position the furniture underneath rather than around a central pole as with conventional designs. The crank mechanism enables effortless use.

The parasols are made using lightweight durable polyester fabric which is water resistant and easy to clean. To clean your parasol we advise that the fabric is kept attached to the frame. For best results use a soft brush or broom and warm soapy water. For stubborn stains the canopy can be removed and washed at 30°C. Once washed it is important to put the canopy back on the frame to dry.

Fabric Treatments

To keep your cushions looking their best, clean regularly using our Fabric Cleaner. Dampen the fabric, spray the cleaner onto the affected area and leave for 3-10 minutes, allowing it to work its magic. Rinse with clean water and allow to dry. Add a layer of protection once dried, using the Fabric Shield – this adds a layer of water resistance and helps to prevent stains.
