## SPACE – A FUNCTIONAL RANGE OF MEETING TABLES WITH A CLEAN SCANDINAVIAN LOOK

Space is a functional range of meeting tables designed by the Andersen Design Team. The range consists of tables in several heights and widths, as well as round tables. The elegant base is available in black lacquered oak, clear lacquered oak, or white pigmented lacquered oak, and the tabletop is available in many colours. This maximises the options for creating exactly the table that fits into your context, whether it's for use as a meeting table, in an office, or in another public space.

With a standard total length of up to 480 cm, the Space table is ideal for rooms which call for extra length and gravitas. Available in widths of 120 cm or 140 cm. The longest standard tables are available in a width of 160 cm. Uniquely, the table maintains its stability regardless of its size. Its construction means that the table only requires a few bases despite its length. Cable covers and power solutions can be added to Space, giving you a practical and attractive solution.

### PRODUCT HIGHLIGHTS

- Large selection of heights, widths and formats
- Available in lengths up to 480 cm as standard
- Available in widths up to 160 cm as standard
- Custom sizes available
- Tabletop options in many colours
- Elegant Scandinavian design and look
- Option for integrated cable covers and power solutions
