S3 – BEAUTIFUL AND PRACTICAL FOR STORAGE

The inspiration for S3 came from the Danish classics, but at the same time, the series also has an added contemporary touch of modernism. The result is an interesting fusion of new and classic design which, at the same time, provides a wide range of storage options.

S3 is a piece of furniture that will add an elegant touch of quality to your home, to the office or meeting room and, with its options for coloured doors, gives the room colour and warmth.

The functional furniture has both drawers and doors, and it can therefore be used to store everything from porcelain and tableware to games, vases, etc. S3 is made of solid wood with joints, turned legs with brass rings and drawer frames, which are also in solid wood. A piece of furniture based on good and classic handcrafted work. Both doors and drawers are soft-close so that no unnecessary noise is created in the open office landscape or in the meeting room.

PRODUCT HIGHLIGHTS

- Quality furniture with visible studs and other joinery details
- All doors and drawers are soft-close
- Beautiful storage furniture for e.g your home, the office or meeting room
- Available in several types of wood and colours/colour combinations on doors
