## LC1 – A LOUNGE CHAIR DESIGNED WITH COMFORT IN MIND

The LC1 lounge chair from Andersen is designed to create fullness and cosiness in any room. The combination of the stringent wooden frame and the loose and relaxed upholstery has created a chair that invites you to take a break, whether in a waiting room, in informal settings for internal meetings or in the executive office.

The LC1 chair features a level of comfort rarely found in a lounge chair while also maintaining the simplicity of the Nordic style. The upholstery is crafted from soft and supple Sevilla leather, a premium leather that takes on a beautiful patina with time. The frame is made of solid oak, creating the potential for a wonderful chair that is robust and durable. The chair height also makes it easy for people of all ages to get out of.

There is a choice of three high-quality versions. The solid oak frame is available in a choice of finishes: white-pigmented matt lacquer with black leather or cognac leather, or black lacquer with black leather.
