

Italo

Solido nella sua morbidezza estetica, il tavolo Italo si presenta come un prodotto dalla personalità ben definita. Disponibile nei formati classici, tondo, quadrato e rettangolare, ma con gli angoli arrotondati, presenta linee sinuose con sezioni marcate dal temperamento scultoreo e monumentale, sia nel top sia nel basamento, a tre o quattro gambe. La declinazione in differenti proposte cromatiche delle lacche, lucide e opache, e dei marmi permette di dare vita ancora una volta ad oggetti unici.

Solid in its aesthetically smooth shapes, the Italo table presents itself as a product with a well-defined personality. Available in the usual formats - round, square and rectangular, but with rounded corners - it shows sinuous lines with sections marked by a sculptural and monumental character, both in the top and in the base, with three or four legs. The proposal of different color hues for the lacquers, glossy and opaque, and of the marbles allows to give life once again to unique objects.
